

VIKING[®]

PROFESSIONAL PERFORMANCE FOR THE HOME

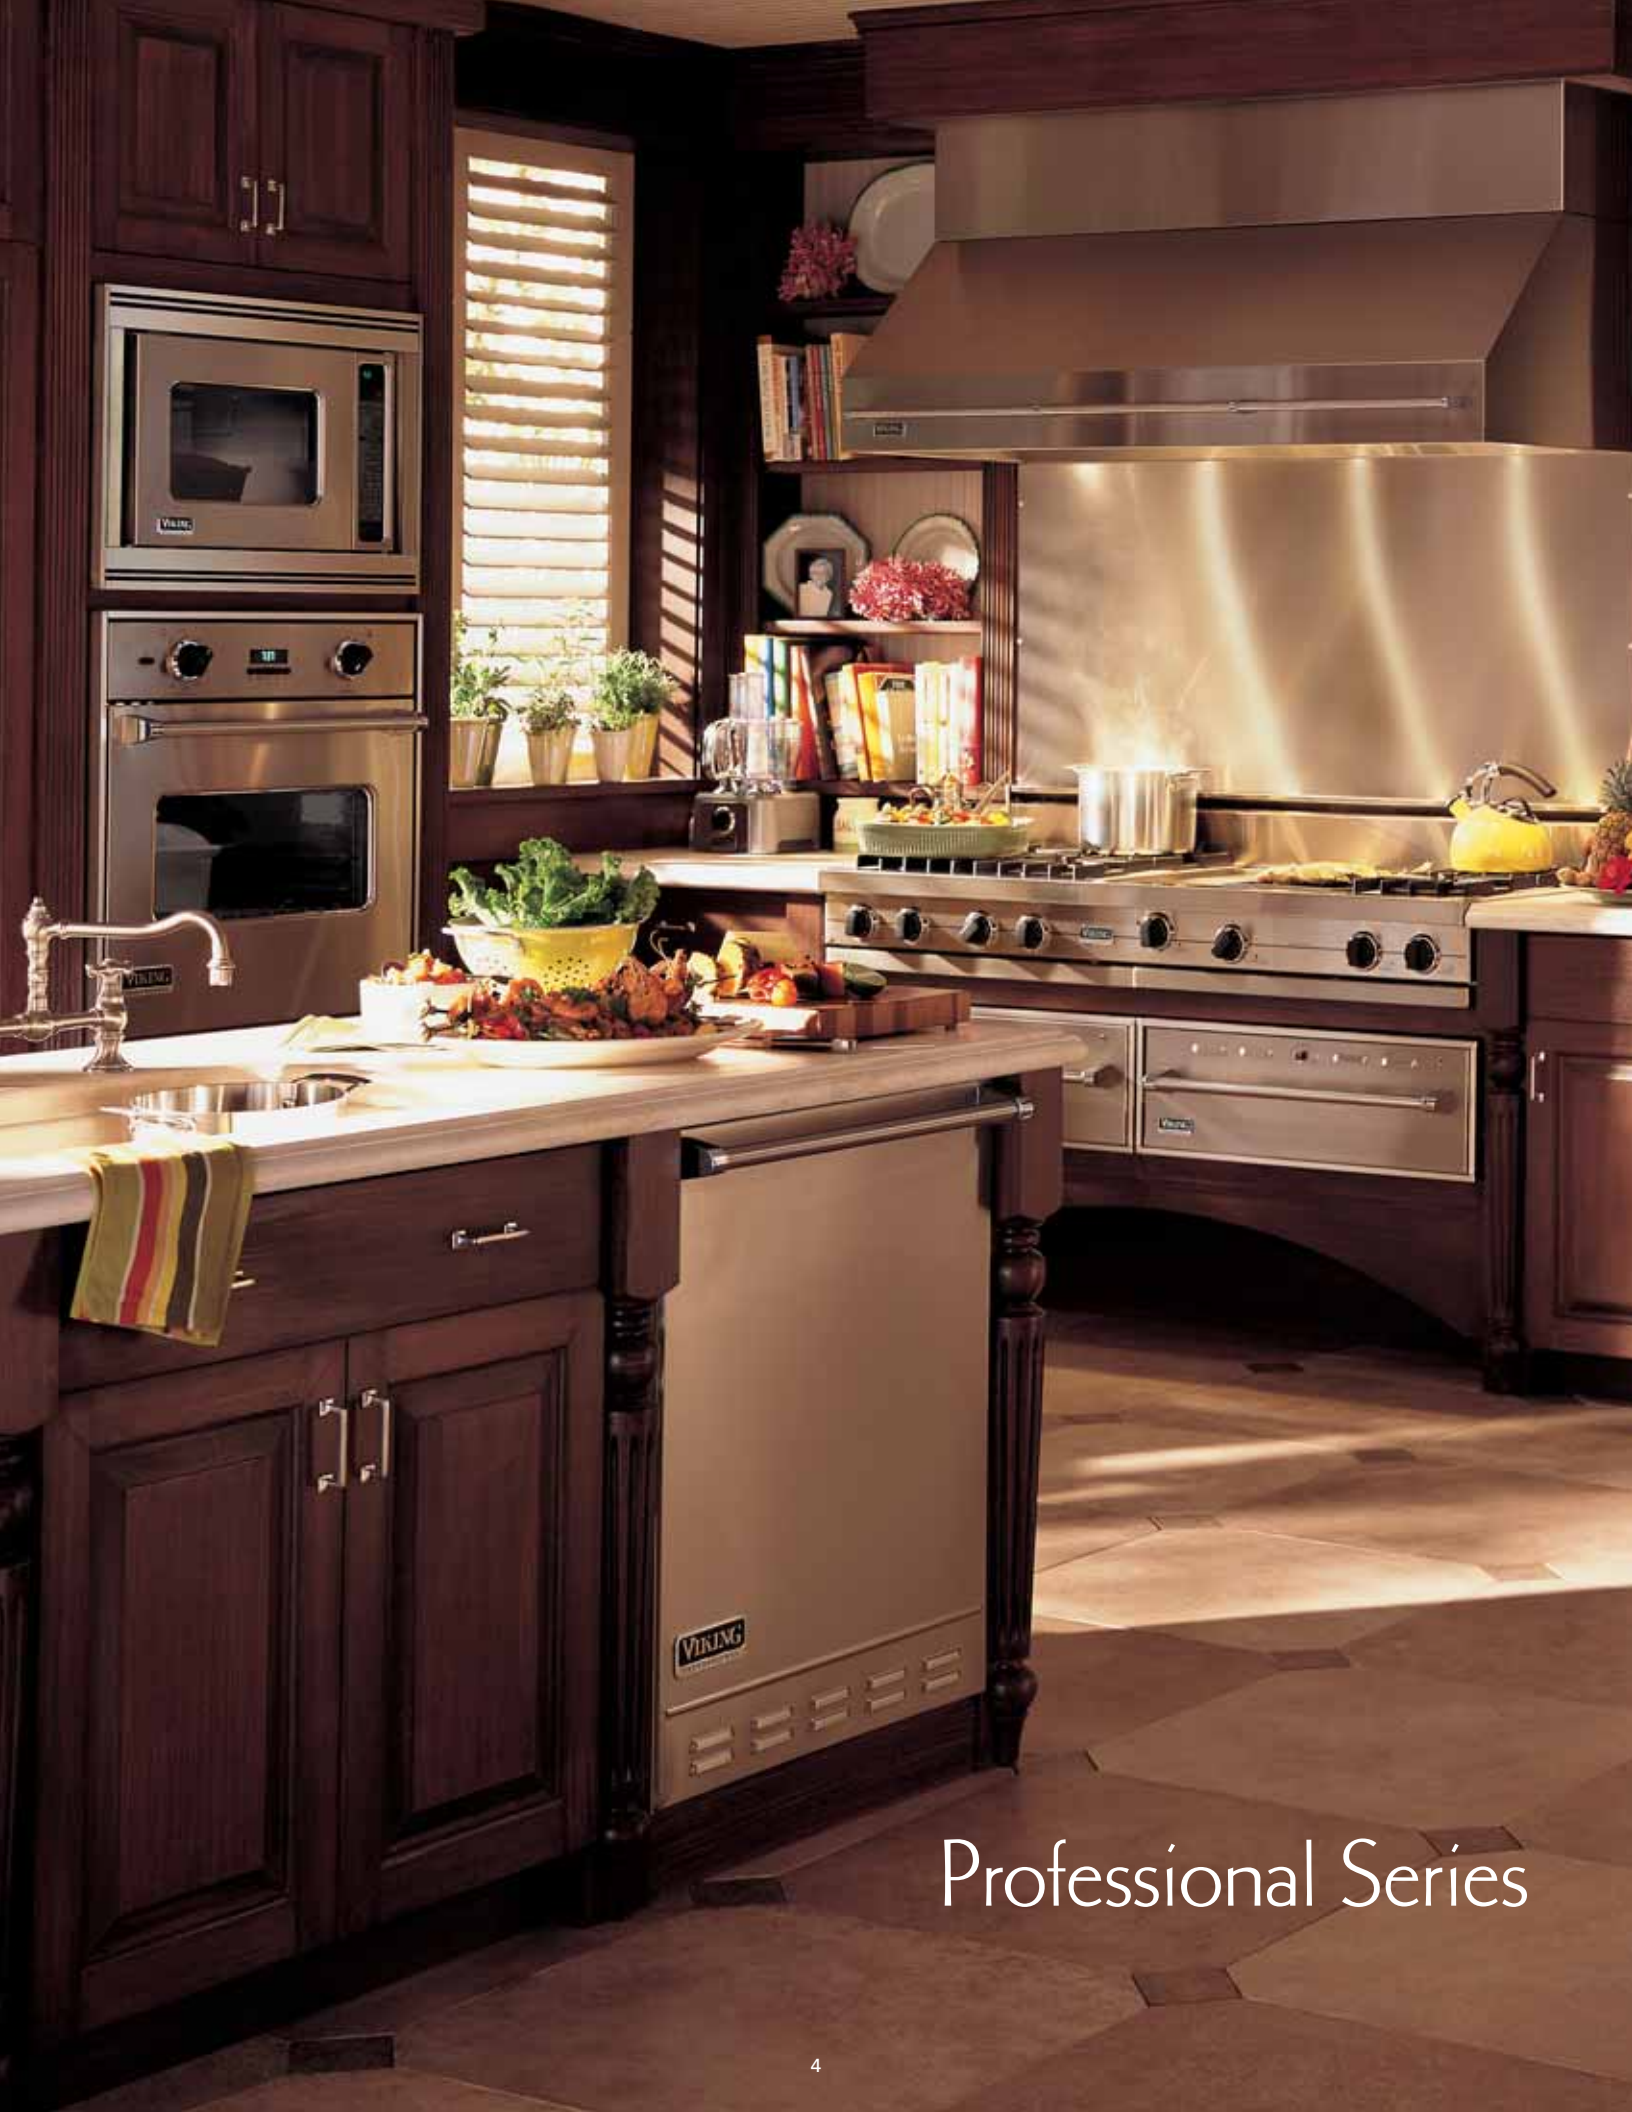

Consistency in both performance and design should be a major consideration when building or remodeling a home. With the complete Viking indoor or outdoor kitchen, every single product works together in form and function with the same level of excellence. It's something Viking calls Design Integrity™.

Viking is the only company that offers complete ultra-premium kitchens – so Viking is also the only company that can offer truly consistent design, while delivering the quality and performance that makes Viking the true market leader. Across all product categories, the knobs, handles, bezels, curves, angles, and lines all match. This enables the designer to create a perfectly harmonious kitchen in one of three Viking product offerings – Professional Indoor, Designer Indoor, or Professional Outdoor.

You wouldn't install mismatched cabinets and drawers or countertops. Yet design differences are even more dramatic between multiple appliance manufacturers. Traditional or contemporary. Stainless steel or color finishes. No matter the look you're going for, no one can match the Viking kitchen and Viking Design Integrity.

Professional Series

VIKING

VIKING

Professional Series Product Line

When you mention to your friends that you're considering a Viking kitchen, the Professional Series is the image that more than likely pops into their envious minds. The bold, commercial look of the Professional Series started it all.

Its heavy-duty style and exceptional features heralded the dawn of the culinary age. And kitchens have never been the same.

From the first twist of the precision knobs on that original 48" wide range, gourmets around the world were hooked.

With ultra-premium features like high-performance open or sealed burners, convection baking, and infrared broiling, you can perfectly cook anything from crème brûlée to rack of lamb.

The Professional Series now encompasses the complete Viking kitchen.

Gas and electric ranges are available in an array of sizes and configurations.

Rangetops add more versatility to Viking performance, allowing you to customize your kitchen to match your cooking

style. Cooktops serve a similar duty, but fit snugly into your existing appliance cutouts. Perfect for an epicurean upgrade.

And now induction cooktops deliver Viking performance by relying on a magnetic field and computer chip instead of gas

Built-in gas and electric ovens also provide high-powered cooking in a number of configurations to suit any kitchen. The sheer convenience of warming drawers will leave you amazed that you made it this long without one. Microwaves, both conventional and

Combi Steam/Convection™ Oven

Electric 27", 30", & 36" Wide Single & Double Ovens

Electric 27", 30", & 36" Wide Warming Drawers

convection models, handily deliver Viking performance with the push of a button. And the high speed convection oven

24", 30", 36", 42", 48", 54", & 60" Wide Wall Hoods

30", 36", & 48" Wide Rear Downdrafts

36", 42", 54", & 66" Wide Island Hoods

combines intense heat circulation and microwaves to cook up to 80%

faster than conventional ovens. The Combi steam/convection oven

cooks gently to lock in moisture, flavor, and nutrients. The multi-use

chamber is perfect for hiding your small appliances, cookware, or spice rack. And when you're perfecting your

trout amandine, you definitely want to have

a Viking ventilation system at your disposal.

Of course, what kitchen is complete without

a towering refrigerator to stow all your fresh

ingredients? With incredible storage space

42" & 48" Wide Built-in, Side-by-Side Refrigerator/Freezers (non-dispenser models available)

36" Wide Built-in, Bottom-Mount Refrigerator/Freezer

30" & 36" Wide Built-in All-Refrigerators

30" & 36" Wide Built-in All-Freezers

and exceptional features, Viking built-in refrigerator/freezers offer the ultimate in cold storage. Side-by-side and bottom-

mount models present an array of convenient options. And our all-refrigerator and all-freezer units deliver dedicated performance with

tremendous storage capacity.

Like their built-in counterparts, Viking freestanding refrigerator/freezers

set the standard in cold storage. Featuring a cabinet-depth design, each model

slides gracefully into any 24" deep cabinetry

space, whether pre-existing or newly installed.

Designer Series

Designer Series Product Line

The Designer Series throws a few curves into the Viking built-in kitchen. Although its

sleek look is decidedly minimal, it boldly conveys Viking performance at a glance. And rest assured, not one

single BTU of commercial cooking power was

sacrificed for appearance's sake. This is high-

powered high design.

Outdoor Products

Professional Series Outdoor Products

Presenting the free-range kitchen. Viking outdoor products liberate professional performance from the kitchen, providing a chef everything he needs to play outside.

Viking Premium and Ultra-Premium gas grills, available built-in or on optional carts, provide enough cooking power to sear porterhouses for all the neighbors. The Outdoor Range™ reaches the pinnacle of barbecue by coupling an outdoor oven with a 53" wide Ultra-Premium gas grill.

The new E Series grills offer even more features, including a numerical thermometer, halogen lights inside the canopy, and push-to-turn electronic ignition/reignition –

everything short of GPS. High-performance side burners and rangetops sauté wild mushrooms or simmer baked beans

with ease, while the infrared grillers reach ultra-high temperatures quick

enough to perfectly sear any cut of meat. The wok/cooker tackles anything from stir-fry to crab boils.

The C⁴ Cooker smokes, sears, and grills over charcoal. The electric smoker oven mixes heat, water vapor, and smoke for perfectly textured meats. It also offers cold smoking for cheeses and thermal convection baking

for crisp cookies and fluffy breads.

Large-capacity warming drawers keep it all fresh until the fireflies come out. And heavy-duty outdoor stainless steel cabinets accommodate everything from your grill to basil

leaves while providing essential counter space.

A particularly juicy steak can cause ventilation issues, even outdoors. So our heavy-duty outdoor hoods are designed to handle whatever your grill dishes out.

Refrigerated beverage centers keep cold drinks handy. And when you really work up a thirst for something frosty, just pull the tap on the beverage dispenser. Or fill

the blender with clean, sparkling ice from the ice machine. And the refreshment center transforms

your patio into a backyard lounge with a sink,

cutting board, insulated bottle bath, ice bin, high shelf, and storage rails. Forget going out on the town.

Go out on the yard.

Professional Series Culinary Products

Professional Series Culinary Products

Viking not only provides everything you need to cook on, but also everything you need to cook with. Viking cookware and cutlery are all made to exceed the standards of the world's finest professional chefs. So they should be able to handle any recipe you dream up.

The entire cookware line is designed in the USA by Viking and crafted in Belgium with an exclusive 7-ply material (5-ply on the stock pots). The specially designed layers of stainless steel and aluminum alloys offer the best in both

cleanability and heat distribution on all cooking surfaces – including induction. But the searing stops short of your hand, thanks to our specially engineered ergonomic handle.

The complete cutlery collection is handmade in Solingen, Germany. The hand-ground blades contain high carbon-chromium vanadium, providing both razor sharpness and a sturdy, stainless surface. The blade is a solid piece running from tip to butt, perfectly balancing the knife in your hand. Viking cutlery is available with a non-slip polyurethane handle or in solid stainless. The right tools allow you to cook anything you can

7" Santoku Knife

imagine. With Viking cookware and cutlery at your disposal, you might even surprise yourself.

8" Bread Knife

It took countless hours at the drawing table, but the Viking design team managed to condense professional performance into countertop appliances. They come equipped with every bit of the power and ultra-premium features you'd expect from a Viking product.

The stand mixer is strong enough to pound any dough into submission. But it won't give you a workout, thanks to exclusive rear-mounted Easy-Glide™ wheels for easy mobility.

Exclusive stainless steel V beater, whip, dough hook, and ergonomic bowl all come standard.

5 and 7 qt. Stand Mixers

Optional accessories include food grinder/stuffer, pasta maker, blender, juicer, and disc slicer/shredder.

Food Processor

The food processor also packs quite a punch with its professional-grade induction motor. This surprisingly quiet unit includes Easy-Glide™ wheels as well. Standard accessories include work bowl,

double pusher, two blades, assorted discs, mini bowl with blade, and disc storage unit. Stainless

steel whip, citrus juicer, and extra discs are also available as optional accessories.

And the professional hand blender makes quick work of everything from soups to

smoothies with a rugged 300-watt motor. The heavy-duty

Hand Blender

Toaster

professional toaster couples stainless style with exclusive features. And it's as easy to use as it is to

clean. Available in two-slot and four-slot models. The professional blender is built to become an

40 oz. Blender

heirloom. Its heavy-duty motor will pulverize ice and whip up extra-thick shakes for generations to

come. Good thing the four available color finishes will never go out of style.
