breathtaking beauty

inside and out

Lombardia. Breathtakingly beautiful. This natural stone veneer is setting new standards for timeless beauty, style and elegance in fine homes and distinctive office and commercial spaces everywhere.

Miraculously created in quarries deep within the earth, Lombardia offers incredibly rich, distinctive colors and textures that only nature can provide. Soft, warm natural creams, golds, roses and greys impossible to replicate at any price in manufactured stone.

Lombardia. Named for the Lombardia region of Northern Italy, where ancient quarries still yield rich deposits of dolomite similar to those found in the river valleys of southern Minnesota, where Mankato Kasota Stone has quarried for more than a century.

Lombardia. Created by nature. Worthy of your surroundings.

cassiglio

Provincial old world charm reminiscent of the tiny Italian hamlet it is named for is captured in this enchanting stone.

Cassiglio combines the simplicity of the romantic Italian hillsides

and hamlets of yesteryear with the sophistication of modern Tuscany and France, to set the tone of comfortable, casual elegance for city and country alike.

Cassiglio's random shapes and sizes add comfortable warmth and character to interior walls and fireplaces as well as exterior facings, columns, patios and seating walls.

Cassiglio is available in a captivating assortment of complementary Quarry Mix colors. (Quarry Mix is a mixture of cream, gold and grey.)

The warm versatility and rich functionality of Bolzano make it an ideal match for every environment, old or new. Use it to complement the lines of a sophisticated modern design, dress up entryways and atriums, or bring new life to older homes and buildings.

verona

A unique blend of rustic charm and urban sophistication, Verona is named for a city rich in its artistic heritage.

This beautiful natural stone captures the ageless splendor and richness of the grand Italian

cathedrals and monuments that have endured throughout the centuries. Masterfully shaped and formed by nature to withstand the test of time, Verona natural stone will retain its warmth and charm for all ages.

Natural Stone Veneers

Natural stone is the most impressive facing material available — and the Lombardia Collection is among the most beautiful of natural stones. Available in a variety of elegant colors and textures, Lombardia offers rich hues of Kasota Cream, Kasota Gold, Kasota Weathered Grey and Kasota Rose. Count on Lombardia to emanate unmatched natural beauty like no other for little more than the cost of inferior synthetic alternatives.

Naturally Beautiful Stone

Lombardia stone boasts natural pattern and texture variations that synthetic thin stone simply cannot duplicate. Let Lombardia dolomite limestone surround you with time-honored durability and ageless warmth in the soft glow and gently varying colors that only nature can create.

cassiglio
