Clay Brick

Quality That Lasts

McNear Brick & Block

The West's oldest brick manufacturer has continuously evolved over the last 140 years, producing modern building materials for a changing world. Our products have ranged from the lightweight aggregate used in the roadway of the Golden Gate Bridge to structural concrete masonry units. Besides manufacturing clay brick, McNear Brick & Block today is a leading producer of interlocking pavers and segmental retaining walls.

Whether you want the aged appeal of a New York loft or the rustic warmth of a Napa winery, McNear makes superior clay bricks to suit any design aesthetic. Bricks of all sorts have been used by builders for thousands of years due to their durability and strength. Did you know that most of the buildings still standing after the great 1908 earthquake in San Francisco were all made of brick? And all McNear bricks are made using 40% – 100% recycled materials, so you'll also leave less of an environmental footprint on the planet.

COMMERCIAL SERIES

Clean lines and vibrant colors are the hallmarks of our Commercial Series. These colors are available in either wire-cut or die-skin textures. Mix these textures in reds, golds, tans, and browns to create a rich tapestry and a functional work of art. Matching Thin Brick and pavers are also available.

McNear Red

Sepia

Tuscan

Dunsmuir

Somerset

Cornwall

Tangiers

Most of these brick products are readily available in modular or standard sizes, but other sizes are special order, and may require minimum order quantities. Matching Thin Brick and pavers are generally available.

Contact McNear Brick & Block for availability of other shapes and sizes.

Standard Brick Series

Thin Brick Series

We have tried to faithfully depict our actual colors in this brochure, but because of the limitations of the printing process, bricks should be selected from actual samples.

These Bricks are Green!

Protect the environment and your building by cladding it in McNear Clay Brick. Our clay bricks are made with a minimum of **40% recycled materials** with most of our products typically consisting of **90% – 100% recycled content.**
